In generative linguistics, a lexis or lexicon is the complete set of all possible words in a language (). In this sense, child, children, child's and children's are four different words in the English lexicon. In systemic-functional linguistics, a lexis or lexical item is the way one calls a particular thing or a type of phenomenon. Since a lexis from a systemic-functional perspective is a way ...

The Test of English as a Foreign Language, or TOEFL, is a test which measures people's English language skills to see if they are good enough to take a course at university or graduate school in English-speaking countries. It is for people whose native language is not English but wish to study in an international University. It measures how well a person uses listening, reading, speaking and ...

The Lifprint Library (ASL Information and Resources)

In scientific notation all numbers are written in the form $m \times 10^n$ (m times ten raised to the power of n), where the exponent n is an integer, and the coefficient m is any real number, called the significand or mantissa. However, the term "mantissa" may cause confusion because it is the name of the fractional part of the common logarithm. If the number is negative then a minus sign precedes m ...
