The agricultural value chain concept has been used since the beginning of the millennium, primarily by those working in agricultural development in developing countries. Although there is no universally accepted definition of the term, it normally refers to the whole range of goods and services necessary for an agricultural product to move from the farm to the final customer or consumer.

The History of Marketing Thought

The origins of a company's products used to be pretty murky. Beyond the supply chain function, virtually no one cared. Of course, all that's changed.
