With this post we begin a monthly discussion of The Cosmic Doctrine by Dion Fortune, which I consider the most important work of 20th century occult philosophy. Climb in and fasten your belts; itâ€™s going to be a wild ride. As noted in earlier posts here, there are two widely available editions of The Cosmicâ€

A gravitational lens is a distribution of matter (such as a cluster of galaxies) between a distant light source and an observer, that is capable of bending the light from the source as the light travels towards the observer. This effect is known as gravitational lensing, and the amount of bending is one of the predictions of Albert Einstein's general theory of relativity.

Models of the Universe are described and classified into three major categories: Historic, Expanding, and Cellular. It is shown that all expanding universe models violate the cosmic edge and containment principle. The multi-millennium conflict between the two major world views --the changing dynamic universe and the unchanging stable universe-- is highlighted.

The origin of the highest-energy cosmic rays is believed to be extragalactic (), but their acceleration sites remain unidentified. High-energy neutrinos are expected to be produced in or near the acceleration sites when cosmic rays interact with matter and ambient light, producing charged mesons that decay into neutrinos and other particles.

May 1, 1980 Questioner: How does a jnani see the world? Maharaj: A jnani is aware of the origin and the value of consciousness, this beingness, which has spontaneously dawned on him. This same consciousness plays a multitude of roles, some happy, some unhappy; but whatever the roles, the jnani is merely the seer of them.
