The dative case (abbreviated dat, or sometimes d when it is a core argument) is a grammatical case used in some languages to indicate, among other uses, the noun to which something is given, as in "Maria Jacobo potum dedit", Latin for "Maria gave Jacob a drink". In these examples, the dative marks what would be considered the indirect object of a verb in English.

English has developed over the course of more than 1,400 years. The earliest forms of English, a set of Anglo-Frisian dialects brought to Great Britain by Anglo-Saxon settlers in the 5th century, are called Old English. Middle English began in the late 11th century with the Norman conquest of England and was a period in which the language was influenced by French.

How many languages are there in the world? Stephen R. Anderson. Download this document as a pdf. The object of inquiry in linguistics is human language, in particular the extent and limits of diversity in the world's languages. One might suppose, therefore, that linguists would have a clear and reasonably precise notion of how many languages there are in the world.
