

supramolecular stereochemistry 1st edition pdf

This is a list of important publications in chemistry, organized by field.. Some factors that correlate with publication notability include: Topic creator – A publication that created a new topic.; Breakthrough – A publication that changed scientific knowledge significantly.; Influence – A publication which has significantly influenced the world or has had a massive impact on the ...

List of important publications in chemistry - Wikipedia

Chirality / k aÉa Èˆ r Ā! l Éa t i / is a geometric property of some molecules and ions. A chiral molecule/ion is non-superposable on its mirror image. The presence of an asymmetric carbon center is one of several structural features that induce chirality in organic and inorganic molecules. The term chirality is derived from the Ancient Greek word for hand, ἡ χεῖρ (kheir).
